RAVE Restaurant Group, Inc. (NASDAQ: <u>RAVE</u>) today announced results for its fourth quarter and fiscal year ended June 24, 2018. RAVE total comparable store retail sales increased 0.4% in the fourth quarter of fiscal 2018 compared to the same period of the prior year.

The Company's net income of \$3.3 million in the fourth quarter, or \$0.21 per diluted share, was an increase of \$4.4 million, or \$0.32 per diluted share,

compared to the same period of the prior year. The Company's net income of \$1.9 million, or \$0.13 per diluted share, in fiscal 2018 was an increase of \$14.4 million, or \$1.31 per diluted share, compared to the prior year. The improved net income over the prior year was largely due to a \$7.9 million improvement in Company-owned stores related primarily to reductions in closed and non-operating store expenses and a \$3.4 benefit from a partial reversal of the previous valuation allowance for net deferred tax assets.

Adjusted EBITDA of \$0.3 million in the fourth quarter was an increase of \$0.6 million compared to the same period of the prior year. Adjusted EBITDA of \$0.6 million for the fiscal year was an increase of \$2.4 million compared to the prior year.

"We are encouraged by progress that we've made with both brands," said Scott Crane, Chief Executive Officer for RAVE Restaurant Group, Inc. "The decisions made in fiscal 2018 have laid a solid foundation for success in coming quarters. We are executing on key elements of our revitalization plans which are driving us towards the next phase of growth. Positive trends in comparable store retail sales point to a strong turnaround."

#### Fourth Quarter Fiscal 2018 Operating Results

Pizza Inn comparable store and total domestic retail sales increased by 2.5% and 0.3%, respectively, during the fourth quarter of fiscal 2018 compared to the same period of the prior year.

"The fourth quarter of fiscal 2018 marked the sixth consecutive quarter of growth in comparable store retail sales for Pizza Inn," said Bob Bafundo, newly promoted President of RAVE Restaurant Group, Inc. "We attribute the increased restaurant traffic and sales momentum to new initiatives such as online ordering, all-day buffet, and remodeled franchise locations. We believe this momentum is continuing in fiscal 2019. We are closely monitoring the effects of Hurricane Florence on our North Carolina and South Carolina stores but, despite weather challenges, we are optimistic about a seventh consecutive quarter of growth in Pizza Inn comparable store retail sales."

The Company opened its first three Pizza Inn Express, or PIE, kiosk locations including a PIE kiosk in the Fort Lauderdale Airport in the fourth quarter.

"PIE was introduced as a complement to the existing Pizza Inn model and is quickly gaining traction with our guests due to its convenience and with our operators due to its low startup costs," said Bafundo. "PIE will allow Pizza Inn to diversify its footprint into convenience stores, malls, travel centers and airport settings. It also now gives RAVE a pizza business model for virtually every footprint between 50 and 5,000 square feet."

Pie Five comparable store and system-wide retail sales decreased by 6.4% and 10.7%, respectively, for the fourth fiscal quarter compared to the same period of the prior year.

"To combat recent sales challenges, Pie Five has launched several sales initiatives including a low carb cauliflower crust, 14" large shareable pizzas, and sandwich melts," said Crane. "We've been very pleased with the consumer response to these new items, which has led to increased frequency from existing guests and an introduction to new users."

Net income improved by \$4.4 million to \$3.3 million in the fourth quarter of fiscal 2018, primarily driven by a partial reversal of \$3.4 million of the previous valuation allowance against net deferred tax assets.

#### **Fiscal Year 2018 Operating Results**

Pizza Inn comparable store retail sales increased by 1.8% and total domestic retail sales decreased by 1.9% during fiscal 2018 compared to the prior year.

Pie Five comparable store retail sales and system-wide retail sales decreased by 12.9% and 16.7%, respectively, during fiscal 2018 compared to the prior year.

"We are well-positioned for the next phase of growth at Pie Five," said Crane. "Our new initiatives combined with our investments in third-party delivery, online ordering and carry-out have allowed us to capitalize on the strengths of the Pie Five brand. We believe that retail sales will improve in future quarters as these new revenue streams expand."

The Company's net income of \$1.9 million, or \$0.13 per diluted share, in fiscal 2018 was an increase of \$14.4 million, or \$1.31 per diluted share, compared to the prior year. The improved net income was largely due to a \$7.9 million improvement in Company-owned stores related primarily to reductions in closed and non-operating store expenses and a \$3.4 benefit from a partial reversal of the previous valuation allowance for net deferred tax assets.

Adjusted EBITDA of \$0.6 million for the fiscal year was an increase of \$2.4 million compared to the prior year.

The Company's cash and cash equivalents increased to \$1.4 million as of June 24, 2018, a \$0.9 million improvement over the prior year end. The increase in cash and cash equivalents resulted from \$4.1 million in cash provided by financing activities, \$0.7 million in cash provided by investing activities, offset by \$3.9 million in cash used by operating activities. The \$4.1 million in cash provided by financing activities resulted from \$5.1 million in proceeds from the sale of stock offset by \$1.0 million payment of short-term debt. The \$0.7 million in cash provided by investing activities was the result of \$1.8 million in proceeds from the sale of assets offset by \$1.1 million in cash used for capital expenditures. The \$3.9 million in cash used by operating activities was primarily the result of payments for lease terminations and reductions of working capital related to the discontinuation of the Norco division.

#### **Development Review**

During the fourth quarter of fiscal 2018, the number of Pizza Inn domestic units increased from 152 to 153 units, while international units declined by two units to 58 units.

"We are proud of the progress we've made with RAVE's legacy brand," said Crane. "Pizza Inn is experiencing a comeback as evidenced by our experienced franchisees stepping up to build new units, and our ability to attract new prospective franchisees to the system. In addition, PIE has bolstered our opportunities in non-traditional settings like airports and convenience stores, allowing for greater flexibility for potential licensees."

In the fourth quarter of fiscal 2018, there were no Pie Five restaurants opened, while five restaurants were closed, bringing the fiscal-year-end total to 73 restaurants.

"The Pie Five model is evolving to meet the modern business climate," said Bafundo. "By closing underperforming Pie Five locations and transferring Company-owned locations to franchisees, we've been able focus our efforts on branding initiatives and the success of our franchisees. We've also introduced a new Pie Five prototype that we're calling the 'Goldilocks' layout. It's a right-sized model that factors in the current labor and real estate environment to offer reduced startup costs and a competitive return on investment at the unit level. This model focuses on speed and simplicity with a limited menu and an emphasis on building off-premise sales through carry-out, online ordering and third-party delivery. Our first Goldilocks location is expected to open in Garden City, Kansas, next month."

# **Conference Call**

A conference call and audio webcast have been scheduled to discuss these results. Details of the conference call are as follows:

Date: Monday, September 24, 2018 Time: 5 p.m. Central Standard Time Dial-In #: 1-844-492-3725 U.S. & Canada 1-412-317-5108 International

The conference call will be webcast at raverg.com. A web-based archive of the conference call will also be available at the above website.

#### **Non-GAAP Financial Measures**

The Company's financial statements are prepared in accordance with United States generally accepted accounting principles ("GAAP"). However, the Company also presents and discusses certain non-GAAP financial measures that it believes are useful to investors as measures of operating performance. Management may also use such non-GAAP financial measures in evaluating the effectiveness of business strategies and for planning and budgeting purposes. However, these non-GAAP financial measures should not be viewed as an alternative or substitute for its financial statements prepared in accordance with generally accepted accounting principles.

The Company considers EBITDA and Adjusted EBITDA to be important supplemental measures of operating performance that are commonly used by securities analysts, investors and other parties interested in our industry. The Company believes that EBITDA is helpful to investors in evaluating its results of operations without the impact of expenses affected by financing methods, accounting methods and the tax environment. The Company believes that Adjusted EBITDA provides additional useful information to investors by excluding non-operational or non-recurring expenses to provide a measure of operating performance that is more comparable from period to period. Management also uses these non-GAAP financial measures for evaluating operating performance, assessing the effectiveness of business strategies, projecting future capital needs, budgeting and other planning purposes.

"EBITDA" represents earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA represents earnings before interest, taxes, depreciation and amortization, stock compensation expense, pre-opening expense, gain/loss on scrap or sale of assets, costs related to impairment, non-operating store costs and discontinued operations. A reconciliation of these non-GAAP financial measures to net income is included with the accompanying financial statements.
