RAVE RESTAURANT GROUP, INC.
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

The accompanying condensed consolidated financial statements of Rave Restaurant Group, Inc. (the "Company") have been prepared without audit pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures normally included in the financial statements have been omitted pursuant to such rules and regulations. The unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended June 28, 2015.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary to fairly present the Company's financial position and results of operations for the interim periods reflected. Except as noted, all adjustments are of a normal recurring nature. Results of operations for the fiscal periods presented are not necessarily indicative of fiscal year-end results.

(1) **Summary of Significant Accounting Policies**

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries, all of which are wholly owned. All appropriate intercompany balances and transactions have been eliminated.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Fiscal Quarters

The three month periods ended September 27, 2015 and September 28, 2014, each contained 13 weeks.

Revenue Recognition

The Company recognizes revenue when products are delivered and the customer takes ownership and assumes risk of loss, collection of the relevant receivable is probable, persuasive evidence of an arrangement exists and the sales price is fixed or determinable. The Company's Norco division sells food and supplies to franchisees on trade accounts under terms common in the industry. Food and supply sales revenues, including shipping and handling costs, are recognized upon delivery of the product. Revenue from restaurant sales is recognized when food and beverage products are sold. The Company reports revenue net of sales taxes collected from customers and remitted to governmental taxing authorities.

Franchise revenue consists of income from license fees, royalties, and area development and foreign master license fees. License fees are recognized as income when there has been substantial performance under the agreement by the Company. Domestic license fees are generally recognized at the time the restaurant is opened. Foreign master license fees are generally recognized upon execution of the agreement as all material services relating to the sale have been substantially performed by the Company and the fee has been collected. Royalties are recognized as income when earned.

Stock-Based Compensation

The Company accounts for stock options using the fair value recognition provisions of the authoritative guidance on share-based payments. The Company uses the Black-Scholes formula to estimate the value of stock-based compensation for options granted to employees and directors and expects to continue to use this acceptable option valuation model in the future. The authoritative guidance also requires the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow.

Use of Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Company's management to make estimates and assumptions that affect its reported amounts of assets, liabilities, revenues, expenses and related disclosure of contingent liabilities. The Company bases its estimates on historical experience and other various assumptions that it believes are reasonable under the circumstances. Estimates and assumptions are reviewed periodically and actual results could differ materially from estimates.

Reclassification

Certain items have been reclassified in the prior year financial statements to conform to current year presentation.

(2) Commitments and Contingencies

On April 22, 2009, the Company's board of directors amended the stock purchase plan first adopted on May 23, 2007, and previously amended on June 2, 2008, to increase the number of shares of common stock the Company may repurchase to a total of 3,016,000 shares. As of September 27, 2015, up to an additional 848,425 shares could be purchased under the plan.

The Company is subject to various claims and legal actions in the ordinary course of its business. The Company believes that all such claims and actions currently pending against it are either adequately covered by insurance or would not have a material adverse effect on the Company's annual results of operations, cash flows or financial condition if decided in a manner that is unfavorable to the Company.

(3) Stock-Based Compensation

For the three months ended September 27, 2015, and September 28, 2014, the Company recognized stock-based compensation expense of \$45,000 and \$23,000, respectively. As of September 27, 2015, unamortized stock-based compensation expense was \$0.3 million.

The following table summarizes the number of shares of the Company's common stock subject to outstanding stock options:

	Three Months Ended	
	September 27, 2015	September 28, 2014
Outstanding at beginning of year	871,798	921,198
Granted	42,786	78,800

Outstanding at end of period	<u>914,584</u>	<u>999,998</u>
Exercisable at end of period	<u>443,028</u>	<u>484,323</u>

(4) Earnings per Share (EPS)

The following table shows the reconciliation of the numerator and denominator of the basic EPS calculation to the numerator and denominator of the diluted EPS calculation (in thousands, except per share amounts).

	Three Months Ended

Weighted average common shares outstanding	<u>10,954</u>	<u>9,865</u>
Loss from continuing operations per common share	\$ (0.05)	\$ (0.03)
Loss from discontinued operations per common share	-	-
Net loss per common share	<u>\$ (0.05)</u>	<u>\$ (0.03)</u>

For the three months ended September 27, 2015, options to purchase 24,286 shares of common stock at an exercise price of \$13.11 were excluded from the computation of diluted EPS because the options' exercise price exceeded the average market price of the common shares for the period.

(5) **Closed restaurants and discontinued operations**

In April, 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*, which modifies the definition of discontinued operations to include only disposals of an entity that represent strategic shifts that have or will have a major effect on an entity's operation and requires entities to disclose information about disposals of individually significant components that do not meet the definition of discontinued operations. The standard is effective prospectively for annual and interim periods beginning after December 15, 2014, with early adoption permitted. This pronouncement did not have a material impact on our condensed consolidated financial statements.

The authoritative guidance on "*Accounting for Costs Associated with Exit or Disposal Activities*," requires that a liability for a cost associated with an exit or disposal activity be recognized when the liability is incurred. This authoritative guidance also establishes that fair value is the objective for initial measurement of the liability.

Discontinued operations reflect losses from two Company-owned Pizza Inn locations in Texas. These losses were attributable to leasehold expense associated with a restaurant closed during fiscal 2008 and operating results for a restaurant closed in the fourth quarter of fiscal 2014.

(6) **Income Taxes**

For the three month periods ended September 27, 2015 and September 28, 2014 income tax benefit of \$0.3 million and \$0.1 million, respectively, were calculated on an effective income tax rate that is consistent with the statutory U.S. federal income tax rate of 34% adjusted for state income tax effects and permanent difference items. Management believes that future operations will generate sufficient taxable income, along with the reversal of temporary differences, to fully realize the net deferred tax asset of \$2.9 million.

(7) **Related Party Transactions**

On February 20, 2014, the Company entered into an Advisory Services Agreement (the "Agreement") with NCM Services, Inc. ("NCMS") pursuant to which NCMS will provide certain advisory and consulting services to the Company. NCMS is indirectly owned and controlled by Mark E. Schwarz, the Chairman of the Company. The term of the Agreement commenced December 30, 2013, and continues quarterly thereafter until terminated by either party. Pursuant to the Agreement, NCMS was paid an initial fee of \$150,000 and earns quarterly fees of \$50,000 and an additional fee of up to \$50,000 per quarter (not to exceed an aggregate of \$100,000 in additional fees). The quarterly and additional fees are waived if the Company is not in compliance with all financial covenants under its primary credit facility or to the extent that payment of those fees would result in non-compliance with such financial covenants.

(8) **Segment Reporting**

Summarized in the following tables are net sales and operating revenues, operating income and geographic information (revenues) for the Company's reportable segments for the three month periods ended September 27, 2015 and September 28, 2014 (in thousands). Operating income reported below excludes income tax provision and discontinued operations.

(1) Company stores that were closed are included in discontinued operations in the accompanying Condensed Consolidated Statement of Operations.

(2) Portions of corporate administration and other have been allocated to segments.

2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the consolidated financial statements and accompanying notes appearing elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the year ended June 28, 2015, and may contain certain forward-looking statements that are based on current management expectations. Generally, verbs in the future tense and the words "believe," "expect," "anticipate," "estimate," "intends," "opinion," "potential" and similar expressions identify forward-looking statements. Forward-looking statements in this report include, without limitation, statements relating to our business objectives, our customers and franchisees, our liquidity and capital resources, and the impact of our historical and potential business strategies on our business, financial condition, and operating results. Our actual results could differ materially from our expectations. Further information concerning our business, including additional factors that could cause actual results to differ materially from the forward-looking statements contained in this Quarterly Report on Form 10-Q, are set forth in our Annual Report on Form 10-K for the year ended June 28, 2015. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. The forward-looking statements contained herein speak only as of the date of this Quarterly Report on Form 10-Q and, except as may be required by applicable law, we do not undertake, and specifically disclaim any obligation to, publicly update or revise such statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Results of Operations

Overview

Rave Restaurant Group, Inc., through its subsidiaries (collectively, the "Company" or "we," "us" or "our") operates and franchises pizza buffet ("Buffet Units"), delivery/carry-out ("Delco Units") and express ("Express Units") restaurants domestically and internationally under the trademark "Pizza Inn" and operates domestic fast casual pizza restaurants ("Pie Five Units") under the trademarks "Pie Five Pizza Company" or "Pie Five". We provide or facilitate food, equipment and supply distribution to our domestic and international system of restaurants through our Norco Restaurant Services Company ("Norco") division and through agreements with third party distributors. The following chart presents information concerning Company-owned and franchised restaurants as of and for the three months ended September 27, 2015:

Total Domestic Units	171	\$ 22,459	68	\$ 11,105	239	\$ 33,564
International Franchised	71		-		71	

Domestic restaurants are located in 25 states predominantly situated in the southern half of the United States. International restaurants are located in seven foreign countries.

Basic and diluted income per common share declined \$0.02 per share to a loss of \$0.05 per share for the three month period ended September 27, 2015, compared to a loss of \$0.03 per share in the comparable period in the prior fiscal year. The Company had a net loss of \$0.6 million for the three month period ended September 27, 2015, and net loss of \$0.3 million in the comparable period in the prior fiscal year, on revenues of \$14.5 million for the three month period ended September 27, 2015 compared to \$11.3 million in the comparable period in the prior fiscal year. The increase in net loss from prior year was primarily due to increased pre-opening expenses and higher general and administrative and franchise costs related to additional personnel and other resources to support the growth of the Pie Five franchising and opening of Company-owned restaurants.

Adjusted EBITDA for the fiscal quarter ended September 27, 2015, remained steady at \$0.2 million compared to the prior fiscal year. The following table sets forth a reconciliation of net income to Adjusted EBITDA for the periods shown (in thousands):

	Three Months Ended

Pie Five Brand Summary

The following tables summarize certain key indicators for the Pie Five franchised and Company-owned restaurants that management believes are useful in evaluating performance.

	Three Months Ended	
	September 27, 2015	September 28, 2014
	(in thousands, except unit data)	
Pie Five Retail Sales - Total Stores

Pie Five Average Units Open in Period		
Domestic - Franchised	32	8
Domestic - Company-owned	25	13
Total domestic Units	<u>57</u>	<u>21</u>

Pie Five system-wide retail sales increased \$6.9 million, or 163.3%, for the three month period ended September 27, 2015 when compared to the same period of the prior year. System-wide average weekly sales declined by \$616, or 4.0%, from \$15,302 in the same fiscal quarter of the prior year to \$14,686 for the three months ended September 27, 2015. Compared to the same fiscal quarter of the prior year, average units open in the period increased from 21 to 57. Comparable store retail sales increased by \$46 thousand, or 1.5%, during the first quarter of fiscal 2015 compared to the same period of the prior year.

The following chart summarizes Pie Five restaurant activity for the three month period ended September 27, 2015:

	Three Months Ended September 27, 2015			
	Beginning Units	Opened	Closed	Ending Units
Domestic - Franchised	30	8	-	38
Domestic - Company-owned	24	6	-	30
Total domestic Units	<u>54</u>	<u>14</u>	<u>-</u>	<u>68</u>

We believe that the addition of fourteen Pie Five Units during the first quarter of fiscal 2016 reflects the continuation of an accelerated pace of growth in the opening of Pie Five Units as franchised stores begin to open pursuant to previously executed franchise development agreements and the Company continues to develop its own stores in the Dallas-Fort Worth, Houston, and other metropolitan areas.

Average weekly sales for Company-owned Pie Five restaurants decreased \$902, or 6.4%, to \$13,297 for the three month period ended September 27, 2015 compared to \$14,199 for the same period of prior year. Company-owned Pie Five restaurant operating cash flow increased \$0.2 million, or 51.8%, during the first quarter of fiscal 2016 compared to the same period of prior year. Loss from continuing operations before taxes for Company-owned Pie Five stores increased \$0.6 million for the three months ended September 27, 2015 compared to the same period of the prior year. For the Pie Five Company-owned restaurants, the increase in sales and restaurant operating cash flow was due to an increase in store count.

Pizza Inn Average Units Open in Period		
Domestic Units		
Buffet - Franchised	98	100
Delco/Express - Franchised	71	77
Buffet - Company-owned	1	2
Total domestic Units	<u>170</u>	<u>179</u>

Total Pizza Inn domestic retail sales decreased \$0.9 million, or 4.0%, for the three months ended September 27, 2015 when compared to the same period of the prior year. Pizza Inn domestic comparable store retail sales decreased 1.1%, for the three months ended September 27, 2015 when compared to the same period of the prior year. Loss from continuing operations before taxes for Pizza Inn Company-owned restaurants was \$52 thousand for the three months ended September 27, 2015 and \$44 thousand for the three months ended September 28, 2014.

The following chart summarizes Pizza Inn restaurant activity for the three month period ended September 27, 2015:

	Three Months Ended September 27, 2015			Ending Units
	Beginning Units	Opened	Closed	
Domestic Units				
Buffet - Franchised	99	-	2	97
Delco/Express - Franchised	78	-	5	73
Buffet - Company-owned	2	-	1	1
Total domestic Units	179	-	8	171
International Units (all types)	71	-	-	71
Total Units	250	-	8	242

The net decrease of eight domestic Pizza Inn units during the three months ended September 27, 2015 included four stores that were temporarily closed for portions of the current and prior fiscal year. We believe this is consistent with the recent trend of modest domestic store closures. The number of international Pizza Inn units continues to remain steady.

Non-GAAP Financial Measures and Other Terms

The Company's financial statements are prepared in accordance with United States generally accepted accounting principles ("GAAP"). However, the Company also presents and discusses certain non-GAAP financial measures that it believes are useful to investors as measures of operating performance. Management may also use such non-GAAP financial measures in evaluating the effectiveness of business strategies and for planning and budgeting purposes. However, these non-GAAP financial measures should not be viewed as an alternative or substitute for the results reflected in the Company's GAAP financial statements.

The following key performance indicators presented herein, some of which represent non-GAAP financial measures, have the meaning and are calculated as follows:

- "EBITDA" represents earnings before interest, taxes, depreciation and amortization.
- "Adjusted EBITDA" represents earnings before interest, taxes, depreciation and amortization, stock compensation expense, pre-opening expense, gain/loss on sale of assets, costs related to closed restaurants and impairment charges.
- "Retail sales" represents the restaurant sales reported by our franchisees and Company-owned restaurants, which may be segmented by brand or domestic/international locations.
- "System-wide retail sales" represents combined retail sales for franchisee and Company-owned restaurants for a specified brand.
- "Comparable store retail sales" includes the retail sales for restaurants that have been open for at least 18 months as of the end of the reporting period. The sales results for a restaurant that was closed temporarily for remodeling or relocation within the same trade area are included in the calculation only for the days that the restaurant was open in both periods being compared.
- "Store weeks" represent the total number of full weeks that specified restaurants were open during the period.
- "Average units open" reflects the number of restaurants open during a reporting period weighted by the percentage of the weeks in a reporting period that each restaurant was open.
- "Average weekly sales" for a specified period is calculated as total retail sales (excluding partial weeks) divided by store weeks in the period.

- “Restaurant operating cash flow” represents the pre-tax income earned by Company-owned restaurants before (1) allocated marketing and advertising expenses, (2) depreciation and amortization, (3) pre-opening expenses, (4) operations management and extraordinary expenses and (5) deferred rent adjustment (net) and impairment.
- “Pre-opening expenses” consist primarily of certain costs incurred prior to the opening of a restaurant, including: (1) marketing and promotional expenses, (2) accrued rent, and (3) manager salaries, employee payroll and related training costs..

Financial Results

Revenues:

Revenues are derived from (1) sales of food, paper products and supplies from Norco to franchisees, (2) franchise royalties and franchise fees, and (3) Company-owned restaurant operations. Financial results are dependent in large part upon the volume, pricing and cost of the products and supplies sold to franchisees. The volume of products sold by Norco to franchisees is dependent on the level of franchisee chain-wide retail sales, which are impacted by changes in comparable store sales and restaurant count, and the products sold to franchisees through Norco rather than through third-party food distributors.

Total revenues for the three month period ended September 27, 2015 and for the same period in the prior fiscal year were \$14.5 million and \$11.3 million, respectively. Revenue consisted of the following:

	Three Months Ended	
	September 27, 2015	September 28, 2014
Food and supply sales	\$ 8,639	\$ 7,468
Franchise revenue	1,273	1,018
Restaurant sales	4,624	2,820
Total revenue	<u>\$ 14,536</u>	<u>\$ 11,306</u>

Food and Supply Sales

Food and supply sales by Norco include food and paper products and other distribution revenues. For the three month period ended September 27, 2015, food and supply sales increased to \$8.6 million compared to \$7.5 million the same period in the prior fiscal year due primarily to a \$4.2 million, or 16.8%, increase in total domestic franchisee retail sales driven by an increase in the number of Pie Five franchisee stores.

Franchise Revenue

Franchise revenue, which includes income from domestic and international royalties and license fees, increased by \$0.3 million for the three month period ended September 27, 2015 compared to the same period in the prior fiscal year. This increase was the result of higher royalties resulting from increased Pie Five franchisee retail sales and an increase in franchise fees and development fees related to Pie Five.

Restaurant Sales

Restaurant sales, which consist of revenue generated by Company-owned restaurants, increased 64.0%, or \$1.8 million, to \$4.6 million for the three month period ended September 27, 2015, compared to \$2.8 million for the comparable period in the prior year. This increase was primarily due to positive comparable store retail sales and the opening of new Company-owned Pie Five restaurants in fiscal 2015 and fiscal 2016.

Costs and Expenses:

Cost of Sales

Cost of sales, which primarily includes food and supply costs, distribution fees, and labor and general and administrative expenses directly related to restaurant sales, increased to \$12.4 million for the three month periods ended September 27, 2015 compared to \$9.6 million in September 28, 2014. The increase in costs was primarily the result of new Company-owned restaurants and increased food and supply sales by Norco.

General and Administrative Expenses

General and administrative expenses increased to \$1.6 million for the three month period ended September 27, 2015 compared to \$1.1 million for the quarter ended September 28, 2014.

Franchise Expenses

Franchise expenses include selling, general and administrative expenses directly related to the sale and continuing service of domestic and international franchises. These expenses increased to \$0.9 million for the three month period ended September 27, 2015 compared to \$0.7 million for the three month period ended September 28, 2014.

Pre-Opening Expenses

Pre-opening expenses increased to \$0.4 million for the first quarter of fiscal 2016 compared to \$35 thousand for the same quarter of fiscal 2015 due primarily to an increased number of Company-owned Pie Five stores under development.

Bad Debt Expense

The Company monitors franchisee retail sales and receivable balances and adjusts credit terms when necessary to minimize the Company's exposure to high risk accounts receivable. Bad debt expense remained consistent at \$0.1 million for the three month period ended September 27, 2015 as compared to the comparable period in the prior fiscal year.

Interest Expense

Interest expense decreased \$0.1 million for the three month period ended September 27, 2015 as compared to the comparable period in the prior fiscal year. A zero debt balance in the current period resulted from the payoff of the Company's bank credit facilities in the first quarter of fiscal 2015.

Provision for Income Tax

For the three month period ended September 27, 2015, an income tax benefit of \$0.3 million was calculated on an effective income tax rate that is consistent with the statutory U.S. federal income tax rate of 34% adjusted for state income tax effects and permanent difference items. Management believes that future operations will generate sufficient taxable income, along with the reversal of temporary differences, to fully realize the net deferred tax asset of \$2.9 million.

Discontinued Operations

Discontinued operations reflect losses from two Company-owned Pizza Inn locations in Texas. These losses were attributable to leasehold expense associated with a restaurant closed during fiscal 2008 and operating results for a restaurant closed in the fourth quarter of fiscal 2014.

Liquidity and Capital Resources

Our primary sources of liquidity are cash flow from operating activities and proceeds from the sale of common stock.

Cash flows from operating activities generally reflect net income adjusted for certain non-cash items including depreciation and amortization, changes in deferred tax assets, share based compensation, and changes in working capital. Cash provided by operating activities increased \$1.5 million to cash provided of \$0.7 million for the period ended September 27, 2015 compared to cash used of \$0.7 million for the three months ended September 28, 2014. This was partially the result of a change in our distribution model which shifted the responsibility for maintaining distribution inventory from Norco to third party distributors.

Cash flows from investing activities reflects capital expenditures for the purchase of Company assets. The Company used cash of \$3.6 million for the three month period ended September 27, 2015, primarily for new Company-owned Pie Five restaurants. This compares to cash used by investing activities of \$0.5 million during the same period in the prior fiscal year attributable to Company-owned Pie Five restaurants that opened during the period.

Cash flows from financing activities generally reflect changes in the Company's borrowings and stock activity during the period. Net cash provided by financing activities was \$0.8 million and \$0.4 million for the three month periods ended September 27, 2015 and September 28, 2014, respectively, which reflected proceeds from the sale of stock in both periods offset by the repayment of bank debt in the first quarter of fiscal 2015.

On May 20, 2013, the Company entered into an At-the-Market Issuance Sales Agreement with MLV & Co. LLC ("MLV") pursuant to which the Company could offer and sell shares of its common stock having an aggregate offering price of up to \$3,000,000 from time to time through MLV, acting as agent (the "2013 ATM Offering"). The 2013 ATM Offering was undertaken pursuant to Rule 415 and a shelf Registration Statement on Form S-3 which was declared effective by the SEC on May 13, 2013. On November 20, 2013, the Company and MLV amended the At-the-Market Issuance Sales Agreement and the SEC declared effective a new shelf Registration Statement on Form S-3 to increase the 2013 ATM Offering by \$5,000,000. The Company ultimately sold an aggregate of 1,257,609 shares in the 2013 ATM Offering, realizing aggregate net proceeds of \$8.0 million.

On October 1, 2014, the Company entered into a new At Market Issuance Sales Agreement with MLV pursuant to which the Company could initially offer and sell shares of its common stock having an aggregate offering price of up to \$5,000,000 from time to time through MLV, acting as agent (the "2014 ATM Offering"). On February 13, 2015, the aggregate offering amount of the 2014 ATM Offering was increased to \$10,000,000. The 2014 ATM Offering is being undertaken pursuant to Rule 415 and a shelf Registration Statement on Form S-3 which was declared effective by the SEC on August 8, 2014. Through September 27, 2015, the Company had sold an aggregate of 825,763 shares in the 2014 ATM Offering, realizing aggregate net proceeds of \$7.9 million.

Management believes the cash on hand combined with cash from operations and proceeds from the 2014 ATM Offering will be sufficient to fund operations for the next 12 months.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect our reported amounts of assets, liabilities, revenues, expenses and related disclosure of contingent liabilities. The Company bases its estimates on historical experience and various other assumptions that it believes are reasonable under the circumstances. Estimates and assumptions are reviewed periodically. Actual results could differ materially from estimates.

The Company believes the following critical accounting policies require estimates about the effect of matters that are inherently uncertain, are susceptible to change, and therefore require subjective judgments. Changes in the estimates and judgments could significantly impact the Company's results of operations and financial condition in future periods.

Accounts receivable consist primarily of receivables generated from food and supply sales to franchisees and franchise royalties. The Company records a provision for doubtful receivables to allow for any amounts which may be unrecoverable based upon an analysis of the Company's prior collection experience, customer creditworthiness and current economic trends. Actual realization of accounts receivable could differ materially from the Company's estimates.

Prior to January 5, 2015, inventory consisted primarily of food, paper products and supplies primarily warehoused by the Company's third-party distributors for distribution system-wide and was stated at lower of cost or market, with cost determined according to the weighted average cost method. The valuation of such inventory required us to estimate the amount of obsolete and excess inventory based on estimates of future demand for our products within specific time horizons, generally nine months or less. The possibility of overestimating demand subjected us to risk of inventory write-down which could have had a negative impact on the Company's gross margin.

Effective in the third quarter of fiscal 2015, The Company changed its distribution arrangements to shift the responsibility for maintaining system-wide distribution inventory from Norco to third party distributors. As a result, as of September 27, 2015, inventory consisted primarily of food, paper products and supplies stored in and used by Company restaurants and was stated at lower of first-in, first-out ("FIFO") or market. The valuation of such restaurant inventory requires us to estimate the amount of obsolete and excess inventory based on estimates of future retail sales by Company-owned restaurants. Overestimating retail sales by Company-owned restaurants could result in the write-down of inventory which would have a negative impact on the gross margin of such Company-owned restaurants.

The Company reviews long-lived assets for impairment when events or circumstances indicate that the carrying value of such assets may not be fully recoverable. Impairment is evaluated based on the sum of undiscounted estimated future cash flows expected to result from use of the assets compared to its carrying value. If impairment is recognized, the carrying value of the impaired asset is reduced to its fair value, based on discounted estimated future cash flows.

The Company periodically evaluates the realizability of its deferred tax assets based upon the Company's analysis of existing tax credits by jurisdiction and expectations of the Company's ability to utilize these tax assets through a review of estimated future taxable income and establishment of tax strategies. These estimates could be materially impacted by changes in future taxable income, the results of tax strategies or changes in tax law.

The Company recognizes food and supply revenue when products are delivered and the customer takes ownership and assumes risk of loss, collection of the relevant receivable is probable, persuasive evidence of an arrangement exists and the sales price is fixed or determinable. Franchise revenue consists of income from license fees, royalties, and area development and foreign master license sales. License fees are recognized as income when there has been substantial performance of the agreement by both the franchisee and the Company, generally at the time the restaurant is opened. Royalties are recognized as income when earned.

The Company accounts for uncertain tax positions in accordance with ASC 740-10, which prescribes a comprehensive model for how a company should recognize, measure, present, and disclose in its financial statements uncertain tax positions that it has taken or expects to take on a tax return. ASC 740-10 requires that a company recognize in its financial statements the impact of tax positions that meet a "more likely than not" threshold, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. As of September 27, 2015 and September 28, 2014, the Company had no uncertain tax positions.

The Company assesses its exposures to loss contingencies from legal matters based upon factors such as the current status of the cases and consultations with external counsel and provides for the exposure by accruing an amount if it is judged to be probable and can be reasonably estimated. If the actual loss from a contingency differs from management's estimate, operating results could be adversely impacted.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not required for a smaller reporting company.

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures designed to ensure that information it is required to disclose in the reports filed or submitted under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. The Company's disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive officer and principal financial officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

The Company's management, including the Company's principal executive officer and principal financial officer, or persons performing similar functions, have evaluated the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on such evaluation, the Company's principal executive officer and principal financial officer, or persons performing similar functions, have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report. During the most recent fiscal quarter, there have been no changes in the Company's internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is subject to claims and legal actions in the ordinary course of its business. The Company believes that all such claims and actions currently pending against it are either adequately covered by insurance or would not have a material adverse effect on the Company's annual results of operations, cash flows or financial condition if decided in a manner that is unfavorable to the Company.

Item 1A. Risk Factors

Not required for a smaller reporting company.

Item 2. Unregistered Sales of Equity Securities and the Use of Proceeds

On May 23, 2007, the board of directors of the Company approved a stock purchase plan (the “2007 Stock Purchase Plan”) authorizing the purchase of up to 1,016,000 shares of the Company’s common stock in the open market or in privately negotiated transactions. On June 2, 2008, the Company’s board of directors amended the 2007 Stock Purchase Plan to increase the number of shares the Company may repurchase by 1,000,000 shares to a total of 2,016,000 shares. On April 22, 2009, the board of directors further amended the 2007 Stock Purchase Plan by increasing the aggregate number of shares the Company may repurchase by 1,000,000 shares to a total of 3,016,000 shares. The 2007 Stock Purchase Plan does not have an expiration date. There were no stock purchases in the three months ending September 27, 2015. As of September 27, 2015, up to an additional 848,425 shares could be purchased under the 2007 Stock Purchase Plan.

Item 3. Defaults upon Senior Securities
